

Simcenter X

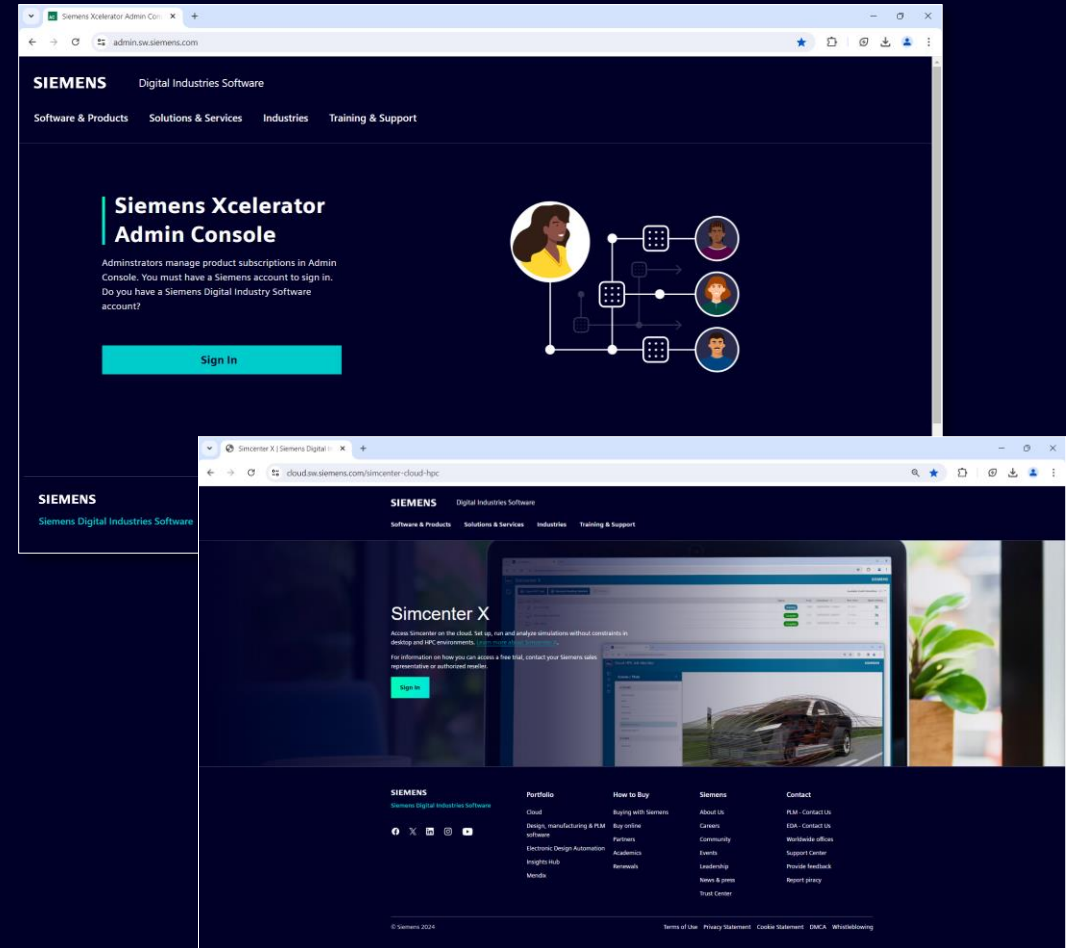

Administrator onboarding using
Siemens Xcelerator Admin Console

Siemens Xcelerator Admin Console and Simcenter X

[Siemens Xcelerator Admin console](#) provides access to a centralized platform for customer administrators to manage subscriptions to Siemens Digital Industries Software cloud products

- Provides the list of products like Teamcenter Share, Simcenter X, Zel X, etc. that are available for that **ECA (Enterprise Cloud Account)**

[Simcenter X](#) provides a turnkey solution to set up and run Simcenter simulations with a complete cloud-based workflow. Access is managed through the Siemens Xcelerator Admin Console by the customer administrator.

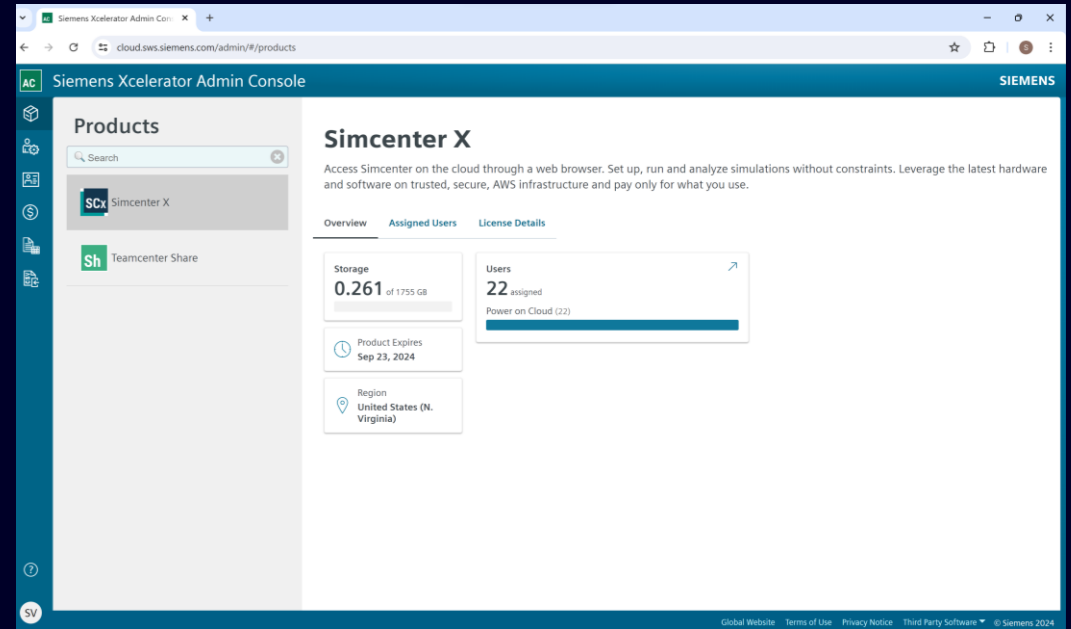

Siemens Xcelerator Admin Console capabilities

Key Functionalities

- Allocate users to specific product to ensure appropriate access
- Provide a consolidated view of all purchased products and license
- Credit management system

The Siemens Xcelerator Admin Console offers 3 roles to manage the ECA:

- **Admins** are responsible for managing subscriptions and end users across all applications
- Admin can assign **Application Owner** role to a delegate to manage a specific application
- **Members** are the end users of the applications

The list of subscribed products Simcenter X and Teamcenter Share will show on the left side of the Siemens Xcelerator Admin Console

Simcenter X administrator onboarding steps

1. Customer administrator receives a confirmation [Email Notification](#) with an admin console link after accepting the Simcenter X Quote and agreement
2. Administrator can log in to the Admin console and do the [Account configuration](#)
3. During the first login the administrator can do the [Product configuration](#) and choose the regional deployment considering: [Deployment regions for optimal workload](#)
4. Manage roles and credits: [Add new Admin](#), [Add users](#) and [Credit management](#)

SIEMENS

Siemens Xcelerator Admin Console

You've been added to Admin Console.

An account administrator has added you to Admin Console.

To get started, [sign in](#) with your Siemens account.

Note: If you have an existing account with a different email, contact the account administrator to invite you using that email. If you don't have an account, please [create one](#).

Account configuration

New Enterprise Cloud Accounts only

Admin receives notification email and link to login to <https://admin.sw.siemens.com>

1. If more than one ECA exists, select the required ECA
2. Accept Communication Preference & Legal Notice
3. If you need change Account Name and Description

Select an account

Product configuration

1. Once the Credits are assigned to your account, Simcenter X is available from Xcelerator Admin Console Products page
 2. Click Configure product to deploy in a specific region
 3. Assign region (first user only). See [Deployment regions for optimal workload](#)
 4. Assign user using email address. The first user will be the “Application Owner”. Subsequent users can be “Members”.
- Leave “Tier: Power on Cloud”

Deployment regions for optimal workload

When evaluating deployment regions, there are three main factors to consider:

1. **Compliance:** If your workload involves data governed by local regulations, selecting a Region that complies with those regulations takes priority over other factors. This is especially important for workloads bound by data residency laws, where choosing a region in that country is mandatory.
2. **Latency:** Network latency greatly influences user experience. Opting for a region close to your user base location can reduce network latency, improve communication quality, and enhance user experience.
3. **Collaboration:** If your team is spread out across different countries, try to pick a central location.

Add new Admin

If multiple administrators are required, new admins can be added by the first admin.

1. Click the Admins button on the left
2. Click “+ Add Admin”
3. Provide the Admin First Name, Last Name, Email Address and click Save

The screenshot displays the Siemens Xcelerator Admin Console interface. The main page is titled "Admins" and includes a table of existing administrators. A sidebar on the left contains navigation icons, with the "Admins" icon highlighted by a red circle labeled "1". The "+ Add Admin" button is also highlighted by a red circle labeled "2". An "Add Admin" modal form is open, showing fields for "First Name", "Last Name", and "* Email Address", with a "Save" button highlighted by a red circle labeled "3".

Siemens Xcelerator Admin Console

Admins

Manage Account Administrators in the Xcelerator Admin Console. The Account Administrators will manage subscriptions and end users.

Add users

1. Added user (also referred to as 'Member' in Product Role) receives automatic email with details about how to login to Simcenter X, and create a WebKey account if required
2. User list is available in Admin Console. Users can be removed if required

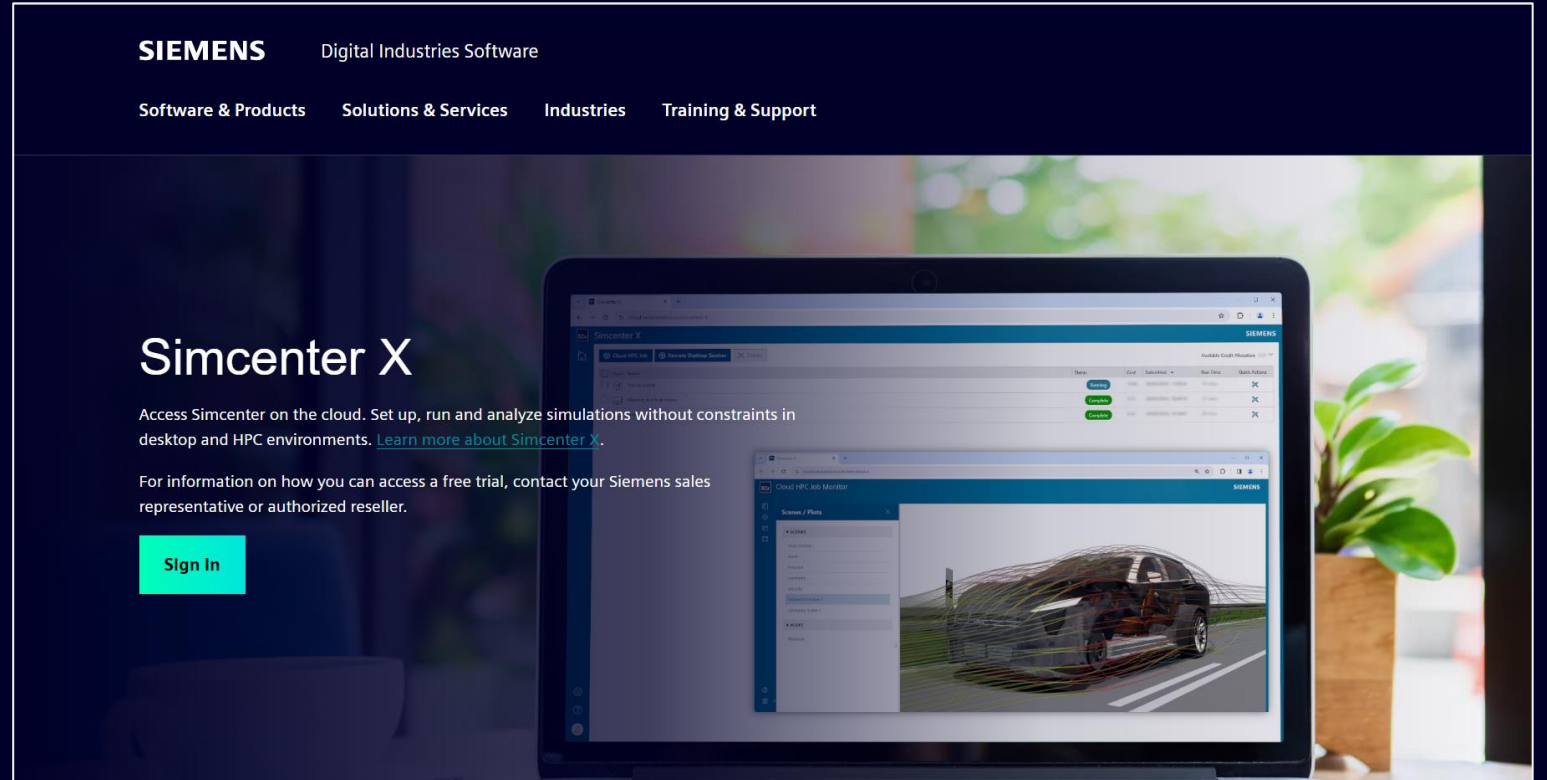

The screenshot displays the Siemens Xcelerator Admin Console interface. On the left, a sidebar shows navigation options for Products, Settings, Reports, and Help. The main content area is titled 'Simcenter X' and includes a search bar, a list of products (Simcenter X and Teamcenter Share), and tabs for Overview, Assigned Users, and License Details. The 'Assigned Users' tab is active, showing a table of users with columns for Name, E-mail, License, and Product Role. Two users are listed, both with a 'Pending sign-in' status. A red circle with the number '2' highlights the user list table.

On the right, a preview of a welcome email is shown. The email header includes the Siemens logo and the text 'Simcenter Cloud HPC' and 'You have been added to Simcenter Cloud HPC.' A red circle with the number '1' highlights the email header. The body of the email contains instructions on how to get started, including links to 'sign in' and 'create one' (create one account). It also mentions that credits may be needed and provides a link to the 'Siemens Community' for questions. The footer of the email states that it was sent on behalf of the account administrator and that Siemens has no responsibility or liability for the content.

Note: at time of writing: 'Simcenter Cloud HPC' is due to be updated in this email to 'Simcenter X'

User access

1. New users will receive a link to the login page <https://cloud.sw.siemens.com/simcenter-cloud-hpc>
2. Admin must assign credits for new users to use the product

Credit management

Credits are consumed by Simcenter X.

- 1. Use Credits page to manage Credits
- 2. Total Credits available and current usage rate
- 3. Review usage summary, recent activity for each user and Credit purchase history
